

Dirac Live

Bring your speakers to life with digital room correction

[QUICKSTART GUIDE](#)

Dirac Live

Leader in Room Correction

What is Dirac Live?

Dirac Live® is a state-of-the-art digital room correction technology that employs a sophisticated analysis of your speakers and listening room to optimize the speakers' overall audio performance and remove sound colorations introduced by the room. The result is substantially improved musical staging, clarity, voice intelligibility, as well as a deeper and tighter bass.

Dirac Live calculates corrections for the full frequency range, **20Hz–20kHz**, improving not only the bass but also higher frequencies such as vocals and musical instruments.

1

Plug in your NAD product that supports Dirac Live Full

Dirac Live Room Correction should only be conducted once you have fully configured your home theater device.

2

Download the Dirac Live Full app

Mobile / Tablet

PC / Mac

Download from

www.nadelectronics.com/dirac-live

3

Follow on-screen instructions

Start your NAD product and Dirac Live Full on your PC or Mac. Make sure both devices are connected to the same network. Then, simply follow setup instructions.

Inventing the Future of Sound

www.dirac.com

Dirac is a world-renowned audio technology company on a mission to invent the future of sound. Dirac's team of engineers and scientists deliver optimized sound solutions for mobile, automotive, residential and commercial environments through inspired innovation and a keen sense of evolving market trends and demands. Dirac's digital sound optimization technologies have been adopted by some of the most respected and recognizable electronics manufacturers spanning the globe, achieving dramatically improved sound quality and a shortened time-to-market. Dirac Research maintains its headquarters in Sweden and has representatives in Japan, USA, Korea, Germany and China.
