

EXPLORER

COLLECTION

LUXURY SOUND ON WATER OR LAND BY ORIGIN ACOUSTICS.

Travel The Seven Seas With The New Explorer Collection !

The Explorer Collection of loudspeakers from Origin Acoustics were developed to withstand the harsh conditions found in marine environments. This includes exposure to saltwater, extreme temperature changes and airborne humidity. They will produce amazing musical fidelity while spending family time on the lake or a trip on the open sea and they have the build quality to last for years in these situations.

Utilizing a unique Weather proof coating, careful attention has been taken to protect every component in the speaker system from the electro-mechanical driver elements to the crossover networks. Stainless steel fasteners and connectors have been selected to enhance wire connections and overall system durability. Now you can experience the incredible sound quality we are known for while enjoying your time on the water.
