

## T2i Remote Control

The T2i is the perfect combination of sleek, sophisticated design and the powerful control capabilities needed in today's automated home or office, at a budget-friendly price. The T2i utilizes advanced technologies such as the dual RF output capability (433MHz & 2.4GHz Zigbee®), an accelerometer, and a 2.8" edge-to-edge color LCD touchscreen for fast, reliable control. Beyond having superb ergonomics and great looks, the fully programmable user interface makes the T2i exceptionally easy to use, even displaying metadata feedback from supported electronics.\* When not in use, the T2i slides into a low profile docking station equipped with a dock connector to ensure ultra-reliable battery charging.

## Key Features

- Dual RF transmission capability uses 433MHz and 2.4GHz (utilizing Zigbee® technology).
- Two-way control using 2.4GHz Zigbee® and RTI control components.\*
- Flush mount, 2.8" color LCD touchscreen.
- Accelerometer provides "instant-on" control.
- Forty-seven programmable keypad buttons with intuitive layout for commonly used functions.
- Four general purpose assignable/programmable keypad buttons with interchangeable keycap labels - Laser Shark compatible.
- Transmits IR and RF (or both - on a single button press!).
- Extremely wide IR transmitting frequency range.
- Greatly improved power management and battery charging.
- Thin, sleek design with superb ergonomics.
- Cursor button allows simple item list navigation.
- Soft-touch keypad buttons are backlit for easy control in darkened rooms.
- System includes a Lithium-Ion battery and docking station.
- Non-volatile Flash memory stores your system configuration even when power is not present.
- Field upgradable firmware.

## Specifications

<i>Power</i> .....	3.6 VDC, 900 mAh Lithium-Ion Battery Pack
<i>Power Management</i> .....	Automatic On/Off (integrated accelerometer)
<i>Infrared Control Range</i> .....	30 feet (9.1 meters) @ 60 degrees
<i>Infrared Frequency Transmission Range</i> .....	15kHz - 460kHz
<i>Radio Frequency Control Range</i> .....	Up to 100 feet (30.5 meters) .....(With optional System Interfaces/Processors)
<i>Radio Frequency Carrier</i> .....	802.15.4 @ 2.4GHz (Zigbee® Wireless Mesh Networking) .....433MHz
<i>Operating Temperature</i> .....	+32°F to +122°F (0°C to +50°C)
<i>Operating Humidity</i> .....	5% to 95% Non-condensing
<i>Touchscreen Display</i> .....	High-brightness color TFT LCD .....1/4 VGA (240x320 pixels) with 64K colors .....Integrated high-resolution touchscreen
<i>Display Size</i> .....	2.8 in (71mm) diagonal
<i>Backlights</i> .....	Blue/White LED (Keypad)
<i>Nominal Run Time on Full Charge</i> .....	3-5 hours, continuous use .....(Backlight setting dependent) .....(5 to 7 days on average use)
<i>Standby Time on Full Charge</i> .....	30 Days
<i>Battery Charge Time</i> .....	3-4 Hours
<i>Total System Memory</i> .....	32MBytes Flash (non-volatile) memory
<i>Device Capability</i> .....	Total number of devices is limited only by memory
<i>Macro Capability</i> .....	Unlimited steps in a single macro .....Total number of macros is limited only by memory .....Macro capability on every button
<i>Communications</i> .....	USB 2.0 programming port
<i>Dimensions (L x W x D)</i> .....	10.0" (254mm) x 2.3" (58mm) x 0.7" (20mm)
<i>Enclosure</i> .....	High-impact molded ABS plastic
<i>Weight</i> .....	8.8 oz. (250g) with battery pack
<i>Warranty</i> .....	One Year (Parts & Labor) / 90 days on the battery

All specifications subject to change without notice

\* NOTE: Two-way control requires 2.4GHz Zigbee® and additional RTI control components. The T2i programming and two-way control functionality are similar to the KX2, which limits the two-way feedback capabilities. If more robust two-way control and programming is required (ex. multi-layered graphics, album art) the T2x should be considered.
