

PULSE SUB

Wireless Powered Subwoofer

Preliminary

COMPLETE YOUR SYSTEM The PULSE SUB adds deep, dynamic bass to your system. Designed to pair seamlessly through the BluOS Controller app, the PULSE SUB delivers greater depth and impact to movies, music, and TV without the complexity of a traditional home theater setup. Its powerful performance and compact design make it a natural addition to your Bluesound system.

POWERFUL BASS. PRECISE PERFORMANCE The PULSE SUB combines a powerful 350W amplifier with dual-opposed 6.5-inch woofers to deliver deep, dynamic bass with exceptional control. Designed to reduce unwanted vibration, it keeps low frequencies clean and accurate, bringing greater impact to everything from blockbuster films to your favorite playlists.

DESIGNED FOR MODERN LIVING The PULSE SUB is designed to look as good as it sounds. Its clean, contemporary design complements modern living spaces while pairing seamlessly with the Bluesound family. Available in two finishes with interchangeable grilles, it blends naturally into a variety of interiors while maintaining the signature look and feel of Bluesound.

EFFORTLESS SETUP Adding the PULSE SUB to your system takes just a few steps through the BluOS Controller app. Once connected, it pairs wirelessly with your BluOS-enabled products, delivering powerful bass without the need to run speaker cables across the room. The result is a cleaner setup that integrates seamlessly into the home entertainment system.

FLEXIBLE PLACEMENT Wireless connectivity gives you greater freedom when positioning the PULSE SUB. Wired connections provide additional installation flexibility when needed. Thoughtful cable management helps keep everything neat, allowing the PULSE SUB to integrate cleanly into any living space. Beyond the PULSE CINEMA family, the PULSE SUB also pairs with compatible Bluesound players including the POWERNODE, PULSE M, and PULSE FLEX, bringing deep, dynamic bass to even more listening experiences.
