

Take control of your home technology.

Pro Control's most powerful controller combines one-touch simplicity with robust capabilities. When used with a Pro Control processor, this powerhouse remote offers comprehensive bi-directional capabilities over AV receivers, iPod@dock, lighting, HVAC, security and more. A dazzling, high-resolution LCD touchscreen, programmable 5-way joystick and backlit hard buttons take entertainment to new heights, providing intuitive operation even in darkened rooms.

Flexible to program and easy to use, the Pro24.z features advanced wizard-based software for extremely efficient programming, advanced control and unmatched customization. When paired with Pro Control's ProLink.z control processor, the Pro24.z offers 2.4 GHz two-way Zigbee® communication through walls or cabinets, Ethernet control, and six IR routing ports with adjustable output strength. This paired solution also features two voltage-sensing inputs and support for Apple® iPad® iPhone® and iPod® touch applications.

Whether used as a stand-alone remote or as an advanced control system, the Pro24.z delivers uncompromising command of the environment.

FEATURES

Programmable 5-way joystick	Yes
RF Frequency	Bi-directional Zigbee (2.4 GHz)
Compatible Pro Control processor	ProLink.z
Recharging cradle	Yes
USB recharging cable	Yes
USB programming	Yes
Control via IR	Yes
